ABOUT ME

Passionate about crafting visually stunning websites with captivating animations and fostering collaboration within the development community. Committed to continuous self-improvement and eager to explore full stack development. Excited for the journey ahead!

WORK EXPERIENCE

○ November 2022- Present | Chomchobgroup Co., Ltd.

Frontend Developer

- Led 3 new projects from scratch to deployment, ensuring smooth transition to production using NextJS, TypeScript, TailwindCSS, NextUI
- Developed and launched 6 websites, including Landing pages, E-commerce platforms, and Back office websites
- Collaborated with Designers, Backend Developers, and Testers for successful project completion
- Translated project requirements into actionable tasks using Jira
- Proactively researched and implemented new tools and libraries for project enhancement
- Maintained and improved existing projects for enhanced performance and user experience

○ June 2019 - August 2029 | G-able Co., Ltd.

Android Developer (Internship)

- Designed and implemented a graduate project on a picture-based music recommendation application focusing on colors and mood, using Spotify API, Java and Android Studio
